Women's Institute

Disbands--Community Club is Formed

The Newly Formed Club is Already Working for a Community Hall

A special meeting of the Women's Institute was called by the President, Mrs. C. G. Taylor, and held at the home of Mrs. J. M. Weiss last Saturday afternoon at which a large majority of the members were represented. The purpose of the meeting was to discuss the advisability of continuing or disbanding the organization. After a lengthy debate it was unanimously decided to discontinue the Women's Institute and reorganize as the Arrowwood Community Club continuing with the same executive and years program as outlined at their previous meeting.

The main objective of the Club is to work for a community hall for Arrowwood. With this in view, they are planning a series of card parties and other entertainments. On March 4th, a bridge drive will be held in the evening at the home of Mrs. C. E. Johnston. The proceeds of which will help to swell their funds.

Juniors Win 2-0

For the first time in history the Arrowwood Juniors, scored a victory over the Gleichen Juniors, Saturday last at the Gleichen rink. The ice during the first period was very heavy with snow and no scores were made.

In the second period however the Arrowwood boys, being inspired, speeded up, and had played only a few minutes when Clarence Norton stick-handled his way by the Gleichen defense and scored. With a one goal lead the boys checked hard with Douglas Oliver and Neal Danka breaking up many a rush. In the third period, Hurly Williams and Clarence Norton combined beautifully to score the second goal for Arrowwood. Gleichen was determined to score in the last few minutes of the game but Arthur Saunders in the Arrowwood goal was able to handle all the pucks shot at him to score a shut-out. After the game the boys were treated to the matinee, Harold Lloyd in "Movie Crazy," at the Gleichen theatre.

Lineup:

Goal, Arthur Saunders.
Defence, Stuart Beagle, Neal Durka.
Forwards, C. Norton, Hurly Williams, Douglas Oliver, L. Anderson, Pete Brown.
Manager H. McCullough.

Educational Record

Alberta's educational record has improved in a very gratifying manner during the past three years, according to the annual report of the Provincial Department of Education. The particular feature is an increase in high school enrolment during the past three years of 8,813 the total figure for 1932 being 28,338. Total public and high school enrolment was 170,795. New records were made in the number of school districts operating 190 days or more and in the average length of school year, which was 195 days. The latter is a record for all time.

Milo Notes

Mrs. L. Phillips was hostess to four tables of Bridge on Monday evening, Feb. 6th.

Milo Badminton Club is in full swing. A tournament with Queenstown was in the offing.

Four cars of Milo residents attended the big hockey match in Vulcan Monday evening.

Mrs. Norman MacLeod is confined to bed with flu.

Mr. and Mrs. Thornton, Mr. and Mrs. J. Johnston, P. H. Coleman and J. Barry were business visitors in Calgary on Saturday.

Mrs. Russell Mills is a patient in the Bussano Hospital, suffering with intestinal flu. Her sister friends wish her a speedy recovery.

A local centre for Toronto Conservatory Theory examinations was held in Milo last week with Mr. E. Cully presiding. Mrs. H. H. Coleman's pupils wrote the various grades.

Mrs. J. MacLeod and daughter Jean of Arrowwood were visitors in Milo Saturday.

Miss McDonnell has returned to Milo from her home in Saskatchewan and has resumed her duties in the Bank of Nova Scotia.

Miss Maude Davidson was hostess to four tables of Bridge held at the home of Mrs. J. McLean on Monday evening.

Dr. George Carson and son Charles of Vulcan were visitors to Milo Monday evening. The Doctor was called over to attend Mr. Hudson who was in such a poor condition that he was taken over to Vulcan Hospital where he is now a patient.

The Rebeccas of Milo have a "Mother's Day" Dance, billed for Friday evening, Feb. 17th. A big time is anticipated.

Milo High School students are working over time on their coming concert billed for the 28th of February. This will be "the event of the season."

Local Curlers Do Well at the Gleichen 'Spil

The Arrowwood curlers that took part in the Gleichen "Spil", gave a good account of themselves. The Lowendon rink took third prize in the Birks' Trophy and third in the Distributors' event. The Hales rink took first prize in the Consolation event, while the Jay Beagle rink needed to win only one game more to be among the prizes.

Many hockey fans of Arrowwood and district took advantage of the play-off series between the Gleichen Gunners and the Vulcan Elks by witnessing the two game series. Much interest was due to the fact that two local boys, Ernie Norton and Jack Roberts were playing, the former with the Elks and the latter with the Gunners. Both gave wonderful performances.

High School Group Junior U.F.A. Meets

Last Saturday evening the High School Group of the Jr. U. F. A. met at the Leonard home.

Mr. Roy Sharpe of the Swastika School is the leader and supervisor. The following officers were elected:

President—Riley Ward.
Vice Pres.—Jean MacLeod.
Sec. Treas.—Beth Ellis.
Directors—Norman Earl, J. Scott, Rhina Beagle, Audrey Ward, Marjorie Leonard.

Meetings will be held every second and fourth Saturday evening in each month. The next meeting will be held on Feb. 24th. The place of meeting has not been definitely decided. All High School students are invited and this meeting will be a social evening.

After the business of the meeting the executive held a special meeting to decide the program for Feb. 24th. Then ice cream and cake was served by the hostess.

Dunree School News

The Dunree School held a Valentine Party in the school on Tuesday afternoon which was enjoyed by all. A short program was held first which showed the interest of the pupils participating. Games followed the program and the hilarity heard showed the success of all games played. The climax of all was a birthday cake for Polly Tamlin, 13 years of age, of Gr. VII. Everyone looked eagerly for the would be cake, maybe a nickel, dime, ring, button, safety pin, etc. The valentines were then passed, each pupil receiving a number of tokens of love.

Mike Kenakin had the misfortune of breaking his front teeth while skating.

Mary Verigin spent several days in Calgary having dental work done.

The recent spell cold weather did not stop our school. The building remained warm and the only evidences left by Jack Frost were front bitten cheeks, ears and fingers.

Teacher, Mrs. Hildred Vancil

Saint Valentine

The following was written by Mabel Tamlin, age 9 years, a Gr. III scholar at the Dunree School:

Long ago there was a priest called Father Valentine. The children liked to hear stories from him and liked to run by his side. He helped people in many ways. When they were sick he would go to nurse them and when they were full of sorrow he would go to comfort them. When Father Valentine was too old to go to people's houses the people were sad. He wrote letters to them to make them happy. The little children carried the letters to the people and sometimes birds carried letters to the people too.

School Notes

The members of the High School Literary Society are working most energetically on the play "Fickle Fortune" that is to be staged Friday night March 16, in the Arrowwood School. This play certainly lives up to its name and is well worth seeing.

SYNOPSIS OF ACT ONE

The Warren family are living in poverty due to an elderly aunt who has millions. Just when money is needed most a young lawyer, Brant Allen, arrives with the startling news that Aunt Eliza has been buried to death in a Honolulu Hotel. She has left no will and the Warren girls are to receive her fortune. Roxanna Blossom, an old family servant adds many laughs by disagreeing continually with the eldest Warren girl, Gloria. A synopsis of Act Two will be published next week. Watch for it. Tickets may be obtained from any High School Student any time after Monday, Feb. 20th. DON'T FORGET THE DATE—Friday Night March 10th.

Local and Personal

Don't forget the P.T.A. dance in the school Friday night.

A number of the Arrowwood people attended a dance at Carleton last Friday.

Mr. M. H. Ward and daughter Miss Audrey, were visitors to Calgary on Friday.

Mrs. J. Mackie and Miss L. Mackie were visitors to Calgary on Friday, returning home Saturday evening.

Born—At Mrs. Lowendon's Nursing Home, on Saturday, Feb. 11th, to Mr. and Mrs. P. Nelson, of Queenstown, a son.

Mr. W. H. Dickinson, of Farrow, was a visitor at the home of Mr. and Mrs. W. H. Ellis last Monday.

There was a very good turnout of young people at the dance put on by the Hockey Club in Phillips' Hall last Friday night. The Club realized about \$13.00.

P.T.A. Dance at the School tomorrow night (Friday).

Born—At the Colony, on January 30th, to Mr. and Mrs. Fred L. Verigin, a daughter.

Mr. E. R. Saunders was a business visitor in Calgary on Friday last.

Mr. and Mrs. R. B. Hayes of Gleichen, were visitors at the home of Mr. and Mrs. H. E. Brown on Saturday.

Saturday morning the "Rink Rats" from Gleichen will play the "Bearcats" of Arrowwood at the Arrowwood rink.

Married—At the Colony on Sunday, February 12th, Mary Anulushkin daughter of Mr. and Mrs. Fred Anulushkin to Conny Pozneckoff, of Brilliant, B.C.

The Buffalo Hill School which has been closed since the fire on the 7th, reopened on Monday. Mr. Jennijohn made a fine job of the repair work.

The Brethren Ladies' Aid meets today with Mrs. Everett Brubaker. The next meeting will be held at the home of Mrs. J. S. Culp on Thurs. Feb. 23rd.

A meeting of the electors of Marquette Municipality will be held in Milo on Saturday, Feb. 18th, at 1 p.m. when municipal affairs will be discussed and nominations received for council.

As we go to press we received the sad news from G. E. Harp, that he had received a letter from H. G. Salter advising of his mother's death which occurred at Newburg, Ore., on Feb. 11th and she was buried there on Feb. 11th. We hope to be able to give more particulars next week.

Mr. J. Hansen, who has been assisting in the A. A. Clifford store for the last three months, left on Monday for Chicago. Mrs. Hansen will visit with her parents, Mr. and Mrs. A. A. Clifford, for a time and will follow later. During Mr. Hansen's short stay in Arrowwood he made many friends whose good wishes will follow him.

Mrs. Edward W. Arnold of Loganport, Indiana, daughter of Mr. and Mrs. John Fisher, arrived in Calgary Feb. 5th to be with her father who was taken to Holy Cross Hospital for treatment on Monday, Feb. 6th. Mr. Fisher's condition has improved to the extent that he was able to return to his home in Arrowwood yesterday accompanied by his wife and daughter.

Shouldice Waves

Miss Margaret Rubbelke of Queenstown, spent the week-end with Mr. and Mrs. J. W. McRae.

Miss Doris Harp spent the week-end with Miss Ida MacWilliams.

Abraham Lincoln
When Abraham Lincoln was a young man he ran for the Legislature in Illinois and was badly whipped. He next ran (Continued on page 4)

Mossleigh News

Mr. and Mrs. Carl Stafford visited Calgary over the week-end.

Mr. and Mrs. Ed. Hansen were visitors to Calgary on Tuesday.

There will be a whist drive and dance in Mossleigh Community Hall on Friday, Feb. 17th.

Quite a crowd visited Vulcan Monday night to watch the Gleichen Gunners and Vulcan Elks game. The former team winning the game with the score of 3-1.

From the High River Times: "The latest song hit (When I saw Sweet Peggy Home). She may be the first sign of spring, but she has nothing over our 'Calamity Kate', here."

A certain party was rather disappointed the other day when he saw what he thought to be the first sign of spring, but alas, it was not a gopher—just our old friend Carl Baker. Being stuck in the snow and without a shovel, he had to take the old way and do it by hand and that's that.

SUNSHINE SERVICE STATION—

Why not try our what plan on a complete overhaul job? Satisfaction guaranteed, if we make a mistake fetch it back, we like to oblige and will.

(TOO LATE FOR LAST WEEK)

It is understood there are a few crabbage players in Mossleigh looking for trouble.

Mr. and Mrs. E. Pitman and Mr. and Mrs. F. Hulton were in Calgary on business over the week-end.

The road east of E1 Hansen's is reported impassable, also a few other spots on the highway.

Mr. A. Roebuck of Kirkcaldy stopped in Mossleigh Wednesday to thaw out on the way to Calgary.

We understand Mr. Troy is undertaking a round the world tour this week, which we all hope he will enjoy.

Mrs. A. Breach of Edmonton was a Sunday visitor with her brother, Gordon McDonald.

See the Sunshine Service Station for Firestone and Atlas tires and read the new guarantee.

Mr. W. Strong is having a tough time keeping the town supplied with water these cold days.

If you want a first class job of carpenter work, see Wilfred Hagendorn.

Hockey Notes

Arrowwood 3 - Mossleigh 2
In one of the roughest games ever seen on local ice the Arrowwood club were able to come out on the long end of a 3-2 score, against Mossleigh Wednesday last. Kew rivalry between the two was apparent (Continued on page 4)

Only the best is good enough for Baby

Proved purity and quality upon which no imitation can possibly improve. For 80 years the best of arrowroot biscuits in Canadian homes.

Christie's PURE Arrowroot Biscuits

Tabulating The Census.

In this machine age, and during a period of unemployment on a scale never before experienced, the tendency of some quarters to lay the chief blame for the prevailing unemployment to one factor—the machine. It is being argued that man through its great inventive genius has succeeded as well that he is putting himself out of work; that the machine is now doing what man himself ought to do. It cannot be denied that the machine has displayed man-power in many directions and ways. But, conversely, it cannot be denied that the machine has developed so many new things and made them accessible to masses of the people who would otherwise be denied them that, in other directions and ways, the machine has created employment for man. Many examples of this might be given.

Aside from this, however, there is another fact that is too often overlooked, and that is, hundreds of things are now being made and done by machinery which would never be done at all if we had to depend upon man-power to do them. They would be economically impossible, and but for the machine, man would simply be denied these things which the machines now do or provide for him. In such instances the machine is not depriving man of employment, but is merely adding to the sum total of the world's goods, services, conveniences, even knowledge.

Let us devote this article to a concrete illustration of this fact, gleaned from a most interesting newspaper article. Can you imagine a machine that counts 240 separate facts at the same time? Can you imagine another that detects man-made mistakes? Yet the inventive genius of a Canadian has evolved such machines which are now at work in the Census Bureau at Ottawa, machines unlike anything in the world. They are not replacing men and women, because as many, or more, persons are employed in the Census Bureau as in former years, but they are making thousands of calculations now possible which otherwise would never be made.

The 1921 census of Canada now being tabulated is the biggest job of its kind ever undertaken in this country. Were it not for the two machines referred to it would cost three times as much as it will to tabulate the information which will be published, and would require, never be required. In addition, much more information will be compiled than will be published, but it will be available if and when required.

The two machines are the writer and the tabulator. The first detects errors and the second counts 240 different facts from individual cards at the rate of 240 cards a minute.

The data taken by census enumerators is transferred to small cards by punching holes for each fact recorded. A hole is punched in the proper place to indicate the sex, age, religion, nationality, race, origin, and other things of the person being counted. This card is then sent to the certifying machine to check possible errors. The machine throws out cards on which conflicting pieces of information are given. For instance, if a person's age is 25 and he is listed by mistake as a non-voter, under 21, the cards is thrown into the discard by the machine and sent back for checking to correct the discrepancy.

If a man gives his racial origin as Jewish and his religion as Baptist the card is thrown out and rechecked. If the sex is omitted the card is sent back. The machine, of course, cannot detect a straight error in a single fact, such as the wrong age, but it can and does detect all discrepancies of conflicting data.

The tabulator is the only machine in the world which will count 240 separate facts at the same time, and as already stated, it does it at the rate of 240 cards a minute.

Just how these two uncanny, almost human, machines do their work space will not permit of a description, intensely interesting as it would be. They were invented by A. R. Thornton, mechanical superintendent of the Dominion Bureau of Statistics, and were built in Ottawa under his direction and that of his assistant, F. Bellisle. These two men worked for three years on their plans. They had some little difficulty persuading the Government to allow them to build the machines as commercial manufacturers scoffed and said they would never work. The machines have been working for 15 months without a hitch.

The next largest machine in the world is at Washington and is used by the United States Census Bureau. It, however, tabulates only 60 facts at a time compared with the 240 tabulated by the Canadian machine. The largest commercial machine in the world tabulates only 36 facts and cannot be bought. It can only be rented. Before the 1910 U.S. census is taken, Mr. Thornton's machine will likely be in operation at Washington. Canada is miles ahead of the United States in this.

Development of the machine was an exemplification of the theory of necessity being the mother of invention. Had Mr. Thornton and Mr. Bellisle not set to work in their little machine shop I would most likely never have been invented. Private companies would scarcely devote time and expense and because there is little money in it, the Government does it for its own purposes and the Dominion Government is the only customer in Canada.

But to emphasize the idea mentioned at the outset of this article, let it be repeated that the machines are not throwing men out of jobs. The tabulation of the present census will not cost less than previous ones and as many or more persons will be employed in the Census Bureau as in former years. The Bureau to do much more work to tabulate much more information than ever before, and without, without the machines, never would be tabulated.

So much information will be tabulated that, it is stated, if it were all published the volumes would fill the Parliament Buildings at Ottawa and the printing costs would approach the operating costs of the Canadian National Railways. By careful selection the Bureau will decide what will be published, what figures will be of greater use to the people of Canada as a whole. But the whole picture will be kept on file in Ottawa. The Bureau of Statistics will be a veritable gold mine for research workers and students of sociology and economics, because all this information, carefully tabulated, will be available to them.

Her Heart Was Weak

Nerves Shaky, Nights Restless

Mrs. A. Black, Wallaceburg, Ont., writes—
"I suffered from heart weakness, shaky nerves, and restless nights.
"I saw your advertisement for Milburn's Heart and Nerve Pills and decided to try them without fail, but now I am very thankful I did as they have proved wonderful to me.
"I am now strong and well again, but am now without a box in the house."

For sale in all drug and general stores; put up only by The T. Milburn Co., Ltd.

New Tire Guarantee Announced

New Warranty Hoped To Result In More Satisfactory Service

Much of the confusion incident to the adjustment claims will be eliminated by a new guarantee announced by all standard-line tire manufacturers. The companies believe that no longer will car owners find themselves in dispute with dealers or manufacturers as to the validity of their claims.

The new guarantee, planned to remove all contentious possibilities, warrants tires used in private passenger car service for 9 months or 12 months, depending on the type of tire, and a guarantee certificate accompanies each tire.

All road hazards, excepting punctures and running flat, are covered by the new guarantee, and provision is made for a satisfactory repair or a 50 per cent adjustment based on the term of the guarantee. It will be seen that, under this new warranty, allowance will be made for such injuries as stone-bruises, chews, wheel out of line, faulty-brakes, etc., not previously covered by tire guarantees. This is a new and definite advantage to the tire user.

Dealers are now selling tires under the new guarantee and motorists are aware that a certificate should be obtained with each new tire. The new guarantee covers, also, tires sold as equipment on new passenger cars to be delivered to new owners by dealers.

Leading tire manufacturers believe the new warranty will result in more satisfactory automobile service through the elimination of disputes and the broadened coverage of the warranty.

EXCESS FAT MELTS

Under Treatment that Creates Energy

Some folks are naturally fat, but there are others who are fat because of the chronic diseases of the liver, bowels and kidneys. As a result, poisons and harmful acids get into the body, ambition, and energy get into the blood—this is the general tone of the body is lowered and fat accumulates.

Thousands of overweight men and women find in Kruschen Salt, a powerful, safe, and beneficial means of reducing. The "little salty dose" of Kruschen Salt keeps the organs functioning properly every day, and fills you with such a feeling of radiant vitality and vigor that before you know it you are fairly jumping out of your skin with energy, instead of moping around—and reduction follows as a matter of course.

FREE TRIAL OFFER
If you have never tried Kruschen—get it now. We will send you a 10-day trial supply of Kruschen Salt, absolutely free of charge. No obligation on your part. If you like it, you may keep it. If not, you may return it for a full refund. For instance, if a person's age is 25 and he is listed by mistake as a non-voter, under 21, the cards is thrown into the discard by the machine and sent back for checking to correct the discrepancy.

How Soviet Russia Trades

Demands Cash From Others But Unlimited Credit For Itself

How the barter scheme with Soviet Russia would work out, we will very likely not be allowed to know, because the Canadian Government is said to guarantee \$4,000,000, but in the case of a real trade agreement we get some idea. Italy has a trading post drawn up in 1924, which expires next August, and the Italian Government has apparently had enough of it, as notice is expected to be given within the next few weeks to terminate it. Not only has the trade been very one-sided, but while the Soviet demands cash for Italian purchases, it demanded four years' and four months credit for itself. Now the Soviet has put forward requests for longer credit. That might be five years, six years, seven, or how long will you give it?

Much as nations want trade, five years or more credit compared with cash "is a bit too thick."—St. Thomas Times-Journal.

Canadian Seeds Exchanged

Canadian Wild Flower Seeds For Planting On War Graves In Europe

A report issued by the Division of Botany of the Dominion Experiment Station, Ottawa, shows that the annual exchange list of seeds, collected in the arboretum, comprised some 1,500 species, and a total of 4,800 packets of seeds, 150 rooted plants and 11 cuttings were sent out to 110 botanical gardens or other botanical institutions throughout the world. In return, 21,171 packets of seeds and 21 cuttings were received from foreign gardens. Special supplies were obtained as required, for scientific workers in Canada. Twenty-eight packets of seed of Canadian wild flowers, collected in the arboretum, were sent to the Committee for planting on the battlefields of Europe. Other activities included studies of the life history of insects, and of chemical methods of eradication.

Studio At Coast

British Films To Be Produced In British Columbia

A studio for production of British moving pictures will be established in British Columbia, it was announced by Major C. Fairbanks Smith, former British army officer who has supervised the construction of large studios in Hollywood. The announcement follows the incorporation of the British-American Film Company at Victoria.

The studio will be rented to various Hollywood producers who desire to continue in the British market under the Empire quota laws. In addition, the company will make at least eight productions of its own each year under the direction of Edward Carewe, who has been engaged by the company. Major Smith added that the company will make at least eight productions of its own each year under the direction of Edward Carewe, who has been engaged by the company. Major Smith added that the company will make at least eight productions of its own each year under the direction of Edward Carewe, who has been engaged by the company.

The company will be under British control as the British quota laws specify while the staff and actors will be 70 per cent British.

Shows Star Movements

A miniature planetarium which is said to unfold the drama of the firmament in much the same manner as the \$1,000,000 Alder planetarium in Chicago has been built at St. Louis, Montana, by Stuart O'Byrne, 37-year-old amateur astronomer.

O'Byrne calls his model a "stararium," since, he says, it shows only star movement, while a true planetarium of which there are only two in the United States, show the movements of the stars, planets, sun and moon in their proper position in relation to the time of the year and the latitude from which observed.

It takes thirty-five men about three months to paint the dome of the Capitol at Washington, and 4,500 pounds of paint are mixed for the task.

Over 55,000 pounds of herring scales have been sold by fishermen of New Brunswick to manufacturers of artificial pearls.

HEADACHE
INDIGESTION
BILIOUSNESS
CONSTIPATION

Continuation of the drought in the high-belt grazing regions is threatening South Africa's livestock this season.

According to the 1930 census South Carolina has the highest percentage of illiteracy.

CHEST COLDS Best treated externally

2 WAYS at once!

When a cold goes down into the chest, take no chances. Go to bed and start Vicks double-action treatment.

Rub Vicks vigorously over throat and chest and cover with warm flannel. Relief is two-fold.

(2) By inhalation—Through the skin like a plaster Vicks "draws out" tightness and soreness.

To increase the stimulative effect, reddens the skin over throat and chest with warm towels before applying Vicks.

26/27
OVER 42 MILLION JARS USED YEARLY

Forage Crop Distribution To Improve Wheat Prices

Policy Inaugurated Last Year Is To Reduce Acreage

The forage crop distribution policy inaugurated last year by the federal minister of agriculture, the Honorable Robert Weir, is to be continued in 1933. This policy was designed to encourage and stimulate the production of seed grasses and clover in order that more feed of good quality might be available for livestock and thus develop permanency in agriculture, in the areas where it is possible to do so.

There has been named a provincial committee to handle this work, composed of T. M. Stevenson, agricultural, forage crop laboratory, Saskatchewan, who is responsible for supplying information on varieties, methods of growing and other technical data; S. H. Vigor, field crops commissioner, provincial department of agriculture, Regina, who is responsible for the selection of growers, and will, therefore, receive all applications from farmers wishing to participate in the distribution, and Nelson Young, district inspector, Dominion seed branch, Saskatoon, who will purchase and distribute the seed and also be responsible for the collection of

Selected lots of bromes, western sweet clover and alfalfa will be distributed. Any farmer may apply for one kind of seed grass or clover, where the maximum acreage is 25 per cent applicable. In the case of alfalfa, seed for 10 acres can be secured, and consideration may be given an application for alfalfa and another grass. The total acreage, should this be allowed, would be 25, that is a grower may get alfalfa for 10 acres and bromes for 15.

Applicants must agree to return seed for pound of seed of equal grade from the first satisfactory seed crop, or pay in cash one-half the actual cost of the seed delivered within two years. The return of seed or payment will be made to the Dominion seed branch.

A perfected apparatus, which will enable the deaf and dumb to hear, and so learn to speak—was demonstrated in the office of Hon. J. D. Montali, Ontario Minister of Public Works, under whose directions it was constructed. It is developed on the principle of sound amplification and the cost is a mere fraction of "hearing" machines now in use.

Made Old Cars Deaf
By making the old driver last another year Canadians got along with 27,514 fewer automobiles in 1932 than in 1931, according to statistics in the automobile industry, compiled by the Dominion Bureau of Statistics. The apparent consumption of new automobiles in 1932 was 10,000 fewer than in 1931.

A passenger on a railroad runs only one chance in 37,500,000 of getting killed, statisticians announce. And what the chance of getting a clider in the eye?

More than 56 out of every 100 women in Latvia are engaged in gainful occupations.

HARDWARE

Arrowwood Alberta

win more than \$10,000 in prize
monies if they took correspond-
ing prizes at the world grain
congress. This gives some
idea of the amount of money
it will be possible for Albertans
to bring home if they do com-
paratively well at Regina.

Hockey Notes

(Continued from page 1)

before the game began and
Arrowwood were forced to use
George Roberts in the goal
owing to the absence of the
regular goalie, Sharpe. Moss-
leigh were able to score twice
in the opening frame when
Christie and McColman scored
in short order. King McCole-
man's solo rush was very spec-
tacular and had Roberts beat
all the way.

In the second period, Sharpe
took his place between the lead
pipes for Arrowwood and from
then on Mossleigh were unable
to score. Francis Mason tallied
for Arrowwood early in the
second period on a beautiful
shot from left wing. Shortly
after this Mossleigh picked up
a loose puck at the Mossleigh
blue line, drew the defense a-
side and scored on Hansen.

Penalties were numerous and
both teams seemed to be over-
anxious to score.

The third period opened fast
and Smith, husky, Arrowwood
defense, made a pretty solo
rush to score on Hansen for
the winning goal of the game.
Mossleigh claimed a goal in the
last few minutes of play on a
shot which put the puck at the
goal mouth, but the claim was
not allowed. Referee Hales
handed out many penalties but
all were quite deserving.

These two teams play a re-
turn game this Friday at 8 o-
clock on the Arrowwood rink.
Line up—Mossleigh: Hanson,
F. McColman, D. McColman,
W. Service, Elkins, Christid,
R. Leslie, J. Leslie, H. Leslie.
Arrowwood: G. Roberts,
Sharpe, McLead, Smith, E.
Mason, F. Mason, Beagle, C.
Norton, Horning, McCullough.

Shouldice Waves

(Continued from page 1)

tered business, failed, and
spent 17 years of his life paying
up debt of a worthless partner.
He was in love with a beau-
tiful young woman to whom he
became engaged — then she
died.

Later he married a woman
who was a constant burden to
him.

Entering politics again, he
was for Congress and was badly
defeated. He then tried to get
an appointment to the United
States Land Office, but failed.

He became a candidate for
the Vice-Presidency and was
badly defeated.

In 1858 he was defeated by
Douglas.

One failure after another—
bad failures—great setbacks.

In the face of all this, he event-
ually became one of the coun-
try's greatest men, if not the
greatest.

of setbacks like this, doesn't it
make you feel kind of small to
become discouraged just be-
cause you think you are having
a hard time.

Here and There

Over 100,000 lbs. of seals are ex-
ported annually from Canada,
principally to Germany and the
United States. They are caught
along the lower St. Lawrence
River and off the Atlantic Coast.

A total of \$44,139 radio receiv-
ing licenses have been issued by
the Canadian Government Radio
Branch from April 1 to September
30, 1932, or approximately one to
every eighteen persons of the
population of the Dominion.

A movie theatre has been in-
stalled on R. M. S. Aboard on its
Australasian run and passengers
had the first entertainment in
that line on a recent voyage. This
is the first ship to reach Vancou-
ver, carrying sound movie equip-
ment.

China's first woman barrister,
Mrs. Lo Sze-Kim Yee, was among
the passengers aboard the Em-
pire of Russia, recently sailing
from Vancouver. Mrs. Yee ob-
tained her legal training in Eng-
land and is attached to the Hong
Kong bar.

The Canadian people seem to
have developed a considerable
taste for macaroni, vermicelli,
spaghetti and the like Italian food
preparations. Output of 14 Cana-
dian factories in 1931 was 20-
21,435 pounds as compared with
16,519,625 lbs. in 1930.

With Remembrance Day in our
minds, it is timely to recall the
brief epitome of Canada's part in
the war inscribed on a tablet in
the House of Parliament at Ot-
tawa:—"Six hundred twenty-
eight thousand six hundred forty-
two bore the badge of Canada in
the Great War; sixty thousand six
hundred sixty-one lost their lives
and passed on."

Good hunting is reported from
the Hates Chute, near Matagami,
Ontario, on the main line of the
Canadian Pacific Railway, seventy
miles east of Sudbury. Moose
and deer are very numerous close
to the camp and in the woods
a couple of U. S. hunters secured
a fine bull moose and a deer. They
killed to the limit of their licenses
within a few days.

A free scholarship to be held at
L'Escole Polytechnique of the Uni-
versity of Montreal, offered by the
Canadian Pacific Railway to minor
sons of employees of the railway,
was awarded to J. P. Lecavaller,
15-year-old son of Ephraim, Lecav-
aller, chief clerk at the Mile End
Station. The award entitles to
five years study proceeding to the
degree of Bachelor of Civil Engi-
neering.

Canadian Pacific Railway low
rate return bargain excursions, a
highly popular feature of the rail-
way's operation since February
last, of Boston and will be well
maintained up to the end of the
year. Outstanding recently have
been the trip to Chicago from
Montreal and the shorter trips
into and out of the major cities
from and to the surrounding pro-
vinces. The rate and a return
fare for return trips during the
Remembrance Day holiday was
well patronized and this conces-
sion is again to be offered for the
Christmas and New Year holi-
days. (876)

WAGIN' TUNG

Vol. 2, No. 26 Arrowwood, Feb. 10, 1933 Items for Thought

Let Us Rally to Their Support

Now, since the Women's Institute has disbanded
and reorganized as the Arrowwood Community Club,
with their chief object "a community hall for our fair
city," it behooves every citizen of Arrowwood that has
the welfare of our district at heart to give this worthy
movement every aid possible to further the completion
of their objective. Ever since we chose to cast our lot
in Arrowwood we have felt that a community hall has
been our city's direst need, and it goes without saying
that this movement has our hearty support. More
Power to the Arrowwood Community Club.

Water Pumping! Grain
Treating! or whatever
the job may be, have
you a dependable power
unit to do the work? If
not there is nothing
more dependable, more eco-
nomical than a John
Deere, all enclosed, self
oiling stationary engine. Any one can start it and you
can rest assured that it will stick to the job until it's
done—or the fuel tank runs empty.

Tourist in Arrowwood: "What a splendid village you
have here. Truly one half of the world is ignorant of
how the other half lives."

Native: "Not in this village, Mister; Not in this village."
